

# Chillers 30000–40000 W

## EB 300 WT / EB 350 WT /

## EB 400 WT

- robust industry standard
- fluid cooling with water, water/glycol mixtures and low-viscosity oils
- steel housing with thick powder coating
- identical basic housing for oil and water cooling
- separate cooling circuit and hydraulic circuit
- equipped with a programmable control module that allows small hystereses of the temperature of the cooling medium
- integration of project-specific additional components is possible on request

Further options for the EB series chillers can be found on page 114.
